

# SUNBURY ROAD IMPROVEMENTS

The City of Westerville and the Delaware County Engineer's Office are working to improve safety and reduce congestion along Sunbury Road. This effort is taking place in conjunction with the Smothers Road bridge construction project being supervised and funded by the Franklin County Engineer's Office. The project teams are working together to minimize inconveniences to roadway users.

## SUNBURY ROAD PROJECT OVERVIEW

The City of Westerville is making the following improvements:

- Adding a center turn lane and an additional northbound lane on Sunbury Road from County Line Road to Maxtown Road
- Modifying the intersection at County Line Road with additional lanes
- Installing a storm sewer system
- Installing curb and gutter
- Improving street lighting
- Adding a sidewalk on the west side of Sunbury Road
- Adding a multi-use trail on the east side of Sunbury Road

## PROJECT STATUS (FEB 2017)

- Storm pipe installation is in progress. Roadway users should anticipate delays during this work as single-lane, two-way traffic may be in effect between 9 a.m. - 3 p.m.
- Southbound traffic on Sunbury Road will be detoured from May through fall, 2017. Detour information will be shared via signage, media, direct mail and the City of Westerville's website, social media and e-newsletter.
- The anticipated completion date for this project is late fall 2017\*.

*\*This schedule is an estimate. All work is weather dependent.*

## FUNDING

This is a joint project with the Delaware County Engineer's Office and has received a federal grant of \$6.2 million.
